-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 6-7 are rejected under 35 U.S.C. 112, first and second paragraphs, as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6, last two lines, reciting “said counterpressure is 0.4 to 0.7 of the magnitude of said feed pressure”; the abstract, on the other hand, reciting “counterpressure is 0.4 to 0.7 of the magnitude of the initial pressure”; and the specification at page 6, lines 15-16, further reciting that “counterpressure regulator 8..... this pressure constitutes 0.4 to 0.7 of the pressure generated by the pump 2” appear to be inconsistent with one another.

Claims 6-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a).The claimed “a liquid-gas jet device nozzle” in line 3 provides for ambiguity and confusion in the claim as two distinct devices are involved.

b).Claim 6 recites the limitations “said device” and “said nozzle” in lines 4 and 5 respectively. There are insufficient proper antecedent bases for these limitations in the claim.

c). The term "like" as in the claimed "avalanche-like condensation renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

d). The feed pressure is not defined nor recited in the claims such that the magnitude of counterpressure is ascertained from the recitation in claim 6 of "counterpressure is 0.4 to 0.7 of the magnitude of said feed pressure" .

Claims 2-5 are allowed.

Claims 6-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
